

We are all on the same team in fighting bullying in Romanian and Ukrainian schools

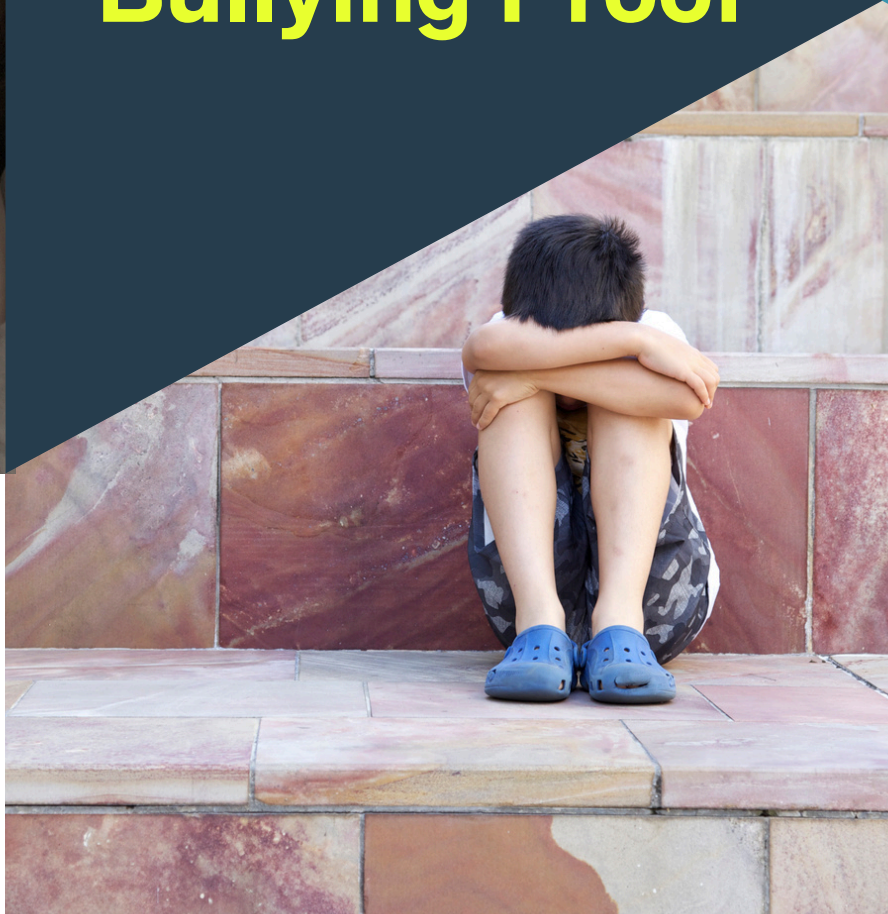

EDUCATION

Bullying Proof

The problem. Project's solution

Bullying, especially cyberbullying, severely impacts students' mental and physical well-being, with one in three children experiencing it regularly. In Romania and Ukraine, limited resources and war-related stress exacerbate this issue, making schools unsafe.

This project tackles bullying through research, teacher training, and student awareness programs. It introduces anti-bullying certification, school interventions, and improved educational spaces with sports facilities, ensuring long-term positive change in 40 schools across both regions.
