

# Lifelong and Cultural Inclusive Education on the Romanian-Ukrainian Border

EDUCATION

LIFECED

## The problem. Project's solution

Access to adult education is a challenge. In the cross-border region, participation in lifelong learning is significantly below the EU average, limiting employability and social inclusion.

By developing accessible training programs, modern educational tools, and inclusive infrastructure, digital and professional skills will be enhanced through cross-border cooperation, ensuring equal learning opportunities and fostering long-term collaboration between educational institutions in Romania and Ukraine.
