

# From Response to Resilience in the RO-UA Border Areas

**RISK PREVENTION**

Interreg

Co-funded by  
the European Union

NEXT Romania – Ukraine

## Together 2.0

### The problem. Project's solution

Communities in Bistra, Repedea, and Velykyi Bychkiv face recurring floods, landslides, and summer forest fires that threaten lives, property, and the environment. The Together 2.0 project strengthens disaster preparedness through new emergency infrastructure, modern equipment, and cross-border training for firefighters, volunteers, and local leaders. It also promotes joint hazard management strategies and public awareness campaigns, ensuring faster responses and greater resilience to natural disasters.
