# Life-Giving Water – way towards long-term access to health

## The problem. Project's solution

Limited access to information about thermal and mineral water resorts in the border regions of Ukraine and Romania hinders healthcare access, especially for vulnerable groups like refugees and displaced persons. By improving awareness through a web-based platform, creating joint informational resources, and fostering cooperation between healthcare institutions and water centers, access to healthcare services will be enhanced, as well as the economic growth of the regions.

**ROUA00343**

**EU funding 348,230.55 EUR**

**Total budget 386,922.84 EUR**

**Project Start April 2025**

**Project End October 2026**

## Cross Border Partnership

### ◆ Lead Partner

International Association of Regional Development Institutions IARDI, Uzhorod, Zakarpattia Oblast, Ukraine

### ◆ Partner 2

Satu Mare County  
Administrative Territorial Unit  
Romania

### ◆ Partner 3

Stefan cel Mare University of Suceava  
Romania

## Contact details

Mr. Nataliya NOSA-PYLYPENKO  
associationiardi@gmail.com

## Who benefits from the project?

- **90 persons** involved in project activities
- **NGOs** focused on healthcare access, refugee support, and regional development
- **local and regional authorities** from Zakarpattia region and Suceava and Satu Mare counties

## Project Outcomes

- **1 web-based Platform** directly linked to partners' internet web-based resources
- **3 Round Tables** with experts and working groups
- **1 database** on thermal/mineral water locations
- **1 Booklet - catalogue** of thermal and salt waters in the region
- **1 Action plan** developed
- **24 long-term partnerships** established between health care institutions and water resorts, as well as regional development institutions, universities, and NGOs
- **3 organisations** cooperating across borders
